Sigma 5-3-2 BIO

Safety Data Sheet

Creation Date: August 5, 2022

Section 1 Identification of the chemical and of the supplier

1.1 Product Identifier Sigma 5-3-2 BIO

1.2 Other means of identification

Synonyms: 5-3-2 BIO

1.3 Recommended use of the chemical and restrictions on use Fertilizer use only

1.4 Supplier's details

Company name: **SIGMA AgriScience**
Address: 580 Maxim Drive
Boling, TX 77420

Telephone number: +1 281 706 8171

Email: info@sigma-agri.com

Website: www.sigma-agri.com

1.5 Emergency phone number +1 281 706 8171

Section 2 Hazards identification

2.1 Classification of the substance or mixture

None
Per GHS Classification this material is not deemed hazardous under the criteria outlined in the Federal OSHA Hazard Communication standard 29CFR 1910.1200

2.2 GHS label elements, including pictogram or symbol, signal word, hazard and precautionary statements

Hazard pictograms: None

Signal word: None

Hazard statements: None

Precautionary statements: None

Other hazards which do not result in classification (e.g. dust explosion hazard): None

Section 3 Composition/information on ingredients

3.1 Substances

This product does NOT contain any hazardous ingredients according to OSHA 29CFR 1910.1200 criteria

Section 4 First aid measures

4.1 Description of necessary first aid measures

Inhalation: If inhaled, remove to fresh air. In case of inhalation of decomposition products in a fire, symptoms may be delayed. Get medical attention if you feel unwell. The exposed person may need to be kept under medical surveillance for 48 hours.

Eye contact: Rinse with plenty of running water. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Skin contact: Wash with soap and water. Get medical attention if irritation develops.

Ingestion: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe.

4.2 Most important symptoms and effects both acute and delayed: No known significant effects or critical hazards.

4.3 Indication of any immediate medical attention and special treatment needed:
Notes to physician: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Section 5 Fire-fighting measures

5.1 Suitable extinguishing media: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media: None identified

5.2 Special hazards arising from the chemical: No specific fire or explosion hazard.

5.3 Special protective equipment and precautions for fire fighters: If possible prevent runoff water from entering storm drains or bodies of water.

Section 6 Accidental release measures

6.1 Personal precaution, protective equipment, and emergency procedures: Sweep up or collect, and reuse as product. If contaminated with other materials, collect in suitable containers.

6.2 Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 Methods and material for containment and cleaning up: Contaminated material can generally be disposed of in an approved disposal facility, in accordance with applicable federal, state, and local regulations.

Section 7 Handling and storage

7.1 Precautions for safe handling: Handle in accordance with good industrial hygiene. Wash hands after handling.

7.2 Conditions for safe storage, including any incompatibilities: Store in a cool dry place out of reach of children and pets. Avoid prolonged exposure to direct sunlight.

Section 8 Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits: None

8.2 Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

8.3 Personal protection equipment: Chemical-resistant, impervious gloves and eye glasses or eye goggles are recommended when handling product. A dust mask is recommended in dusty conditions.

Section 9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance:	Dark, solid granules
Odour	Mild Organic / Earthy
Odour threshold:	No data available
pH @ 20°C:	No data available
Melting point/ Freezing point:	No data available
Initial boiling point and boiling range:	No data available
Flash point:	No data available
Evaporation rate:	No data available
Flammability:	No data available
Upper/lower flammability or explosive limits:	No data available
Vapour pressure:	No data available
Vapour density:	No data available
Relative density:	No data available
Solubility(ies):	No data available
Partition coefficient; n-octanol/water:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity:	No data available
Explosive properties:	No data available
Oxidising properties:	No data available

Section 10 Stability and reactivity

10.1 Reactivity: Non-reactive

10.2 Chemical stability: Stable

10.3 Possibility of hazardous reactions: No data available

10.4 Conditions to avoid: None

10.5 Incompatible materials: None

10.6 Hazardous decomposition products: None

Section 11 Toxicological Information

11.1 Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact): No data available

11.2 Symptoms related to the physical, and chemical and toxicological characteristics: No data available

11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure: No data available

11.4 Numerical measures of toxicity (such as acute toxicity): No data available

Section 12 Ecological information

12.1 Ecotoxicity (aquatic and terrestrial, where available): No known significant effects or critical hazards.

12.2 Persistence and Degradability: No known significant effects or critical hazards.

12.3 Bioaccummulative potential: No known significant effects or critical hazards.

12.4 Mobility in soil: No data available

12.5 Other adverse effects: No known significant effects or critical hazards.

Section 13 Disposal considerations

13.1 Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14 Transport information

Transport Classification for Road (ADR) / Rail (RID); Inland waterways (ADN); Sea (IMDG); Air (ICAO/IATA)

14.1 UN Number: Not regulated
14.2 UN Proper Shipping Name: Not regulated
14.3 Transport hazard class(es): Not regulated
14.4 Packing Group: Not regulated
14.5 Environmental Hazards (e.g. marine pollutant): Not regulated
14.6 Special precautions for user: Not regulated
14.7 Transport in bulk according to Annex II of Marpol 73/78 and the IBC code: Not regulated

Section 15 Regulatory information

No Data Available

Section 16 Other information

16.1 Date of creation: August 5, 2022

16.2 Revision Details: Not Applicable

16.3 References

16.4

National Fire Protection Assoc. (NFPA) classification:
Health 0
Flammability 0
Reactivity 0

Hazardous Materials Information Systems (HMIS):
Red: (Flammability) 0
Yellow: (Reactivity) 0
Blue: (Acute Health) 0

Disclaimer: The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
